

## S1 EQUAL PROJECT SUMMARY

<b><u>Partnership Country &amp; Project Name Name</u></b> Sweden, <b>Analysis and research</b> , Kista Borough
<b>Who are your target groups?</b> (e.g. adults who care for elderly relatives) Adults between 20 - 64 years old who need higher education and training with focus on immigrants and unemployed.
<b>Why were these groups chosen? Approximately how many beneficiaries will you be engaging during the length of the project?</b> (e.g. lack of existing provision – about 50) Our target groups are treated unfairly on the labour market and in the society. We want to open the higher education system for them on their own conditions which is an important part of their life long learning as it is for all people. Today they very often not are accepted or can't study at university level because of rules for commitment, family- or infrastructural reasons in the ordinary university system. The aim is to make the obstacles visible and changed to give these people opportunities to increase their competence by establish open higher courses on demand which will strenghten these peoples' empowerment, equality and adaptability on the labour market.
<b>What methods of engagement will you be using?</b> By doing applied reseach to make obstacles visible, show the rules clearly and sharply to anybody and to show how other countries, specially Finland and UK have find effective solutions. In step two we'll influence the politicians and the decision makers to change the rules in a direction that opens the possibility to realize an open university in Sweden.
<b>What type of learning activity will you be using and from what sort of premises?</b> <b>Is your learning activity new or developed from an earlier project?</b> No learning activities in this package.
<b>What are your expected outputs or results?</b> Rules that support more open and flexible higher education for adults that specially fits our targret groups in thier lifelong learning.
<b>How will you evaluate your project?</b> (e.g. continuous evaluation by partner organisation) A range of methodologies will be used to undertake the evaluation and these will include: questionnaires, interviews, focus groups and desk research.
<b><u>Which partners are involved in your project?</u></b> Kista Borough, IT-University, Integration Administration in the Town of Stockholm, Sollentuna Municipality and Nova Distance. Associated are Åbo Academy University and Midt I Norden.
<b><u>How will basic skills teaching (including ICT) be included in your project?</u></b> Not actual.

<b>Project Contact</b> (name, tel no, email) Ebba Träskelin, telefon: +46 - 70-549 99 95 e-post: ebba.traskelin@novadistance.se
