

S2 EQUAL PROJECT SUMMARY

<p><u>Partnership Country & Project Name Name</u> Sweden, Learning centre development , Järfälla municipality</p>
<p>Who are your target groups? (e.g. adults who care for elderly relatives) All adults between 18 -64 years old who need education and training with focus on immigrants and unemployed..</p>
<p>Why were these groups chosen? Approximately how many beneficiaries will you be engaging during the length of the project? (e.g. lack of existing provision – about 50) We want to open doors into the Swedish labour market, into the Swedish society and give opportunities to a richer life, to create some belief in the future.</p>
<p>What methods of engagement will you be using? (e.g. referral by health workers) By finding unconventional ways of meeting the target groups, giving information, counselling, etc. By creating a welcoming and friendly environment and show possibilities.</p>
<p>What type of learning activity will you be using and from what sort of premises? Is your learning activity new or developed from an earlier project? (e.g. informal learning, producing an online newsletter in a church centre – new project) We want to use a variety of learning activities adopted to the needs of the target groups. To achieve this we have to cooperate with other actors and thus find flexible solutions.</p>
<p>What are your expected outputs or results? Giving people richer lives, self-conscience and a longing for lifelong learning.</p>
<p>How will you evaluate your project? (e.g. continuous evaluation by partner organisation) A range of methodologies will be used to undertake the evaluation and these will include: questionnaires, interviews, focus groups and desk research.</p>
<p><u>Which partners are involved in your project?</u> Sollentuna municipality, Iranian Nat. Ass. Stockholm County, Xpandia Vision, Lernia AB, Kista Borough, part of Stockholm City, ABF, Stockholm and KTH, Royal Institute of Technology.</p>
<p><u>How will basic skills teaching (including ICT) be included in your project?</u> The learning centre will provide flexibility and accessibility from basic up to secondary education. We will give special attention to attitudes and the importance of creating a welcoming and friendly atmosphere without snobbism and prejudices.</p>
